PROFESSIONAL SUMMARY

Information Technology student (Batch 2027) with hands-on internship experience building a production-grade CRM platform serving real business operations. Proficient in Java, Spring Boot, React.js, PostgreSQL, and REST API development. Maintainer of 8 public repositories on GitHub including 3 fully deployed projects. Currently deepening expertise in system design and backend architecture. Passionate about delivering scalable, high-quality software solutions.

TECHNICAL SKILLS

Languages	Java, JavaScript, SQL, Python
Backend	Spring Boot, Spring MVC, Hibernate / JPA, REST APIs, Node.js, Express.js
Frontend	React.js, HTML5, CSS3, Bootstrap, Thymeleaf
Databases	MySQL, PostgreSQL, MongoDB
Tools	Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code
Core Concepts	OOP, Collections, DSA, DBMS, SQL, MVC Architecture
Currently Learning	System Design, Backend Architecture, Distributed Systems

PROFESSIONAL EXPERIENCE

Web Development Intern *May 2026 – Jun 2026*

Selkey Cybersecurity Pvt. Ltd. Anand, Gujarat

- Architected and delivered a production-grade multi-tenant CRM platform actively used across real business operations within a 2-month internship.
- Built 5+ responsive UI modules and integrated REST APIs enabling seamless data exchange across the entire application.
- Developed and maintained 4 core modules: inventory management, case management, dynamic field configuration, and user administration.
- Resolved 10+ bugs and issues through systematic debugging, reducing application errors and improving stability.
- Validated application functionality across 3+ browsers and multiple device types to ensure consistent user experience.
- Received an Appreciation Letter from the organization — awarded to fewer than 5% of interns — for outstanding project contributions.

PROJECTS

RecoverLab CRM | Live Demo / *React.js, Node.js, Express.js, PostgreSQL, JWT, Socket.io*

- Designed and deployed a production-grade multi-tenant CRM platform handling real-world data recovery operations for live clients.
- Implemented 5+ security and automation features including RBAC, JWT authentication, workflow automation, and real-time communication via Socket.io.
- Built 6 end-to-end modules: case management, inventory tracking, client portal, invoicing, payments, and analytics dashboard.
- Authored 70+ database migrations and PostgreSQL schemas with full REST API coverage, ensuring long-term scalability and data integrity.
- Deployed to production using aaPanel and Nginx, configuring server environment, SSL, and reverse proxy for stable live access.

Rentify – Online House/Room Renting Marketplace | Live Link | GitHub | *Java, Spring Boot, Thymeleaf, MySQL*

- Built a full-stack rental marketplace with MVC architecture supporting property listing, search, and booking workflows across 5+ core pages.
- Modelled 4+ relational database entities with JPA/Hibernate, integrated cloud image storage, and implemented responsive UI with Thymeleaf and Bootstrap.
- Deployed to Render cloud platform with live public access, demonstrating end-to-end delivery ownership.

MovieSearch – Recommendation Engine | GitHub | *Spring Boot, Flask, Python, JavaScript*

- Built a cross-framework recommendation system bridging a Python/Flask ML engine with a Java Spring Boot backend via REST API integration.
- Designed bidirectional RESTful communication pipelines delivering real-time movie recommendations with under 2-second response latency.

ACHIEVEMENTS & LEADERSHIP

Smart India Hackathon (SIH 2024 & SIH 2025) – Participant

Collaborated in rapid development sprints to build functional software prototypes within fixed timelines.

IT Support Volunteer | International Conference STSTD-2025

Assisted with live video systems and hardware/software troubleshooting during conference operations.

EDUCATION

B.Tech – Information Technology *Batch 2027*

A.D. Patel Institute of Technology CGPA: 7.82

Class XII (HSC):	70.92% (2023)
Class X (SSC):	92.16% (2021)

GITHUB

8 public repositories including 3 fully deployed production-grade projects and additional repositories demonstrating core programming fundamentals across Java, JavaScript, and Python. github.com/RaNaHaRs

CERTIFICATIONS

- GeeksForGeeks – Java Certification
- GeeksForGeeks – Git Certification
- Smart India Hackathon 2024 – Participation Certificate
- Smart India Hackathon 2025 – Participation Certificate
- Internship Completion Certificate – Selkey Cyber Security Pvt. Ltd.
- Appreciation Letter – Selkey Cyber Security Pvt. Ltd.
